

Welcome!
Edward Palmer
Room 304 – Math VI 3rd thru 8th

About Me: I will be beginning my 22nd year as a teacher in the Philadelphia School District. This is my 20th school year at O.E.C. I reside in Springfield, Delaware County with my wife Shannon and my two sons, Jack (age 11) and Max (age 8). I enjoy all things sports, especially coaching my boys in the activities that they play.

Mission: The goal at our school is to promote students to become positive, productive citizens who can live independently and with purpose to serve others. Additionally, we seek to have proficiency for all students in every subject and development of strong character.

What I'll be Teaching: This coming school year I will teach math in grades 4th through 8th.

Communication: Every student should have daily folder. This folder should be checked every night. All school information will be placed in this folder. Examples of information coming from school might be a flyer from the office, note from a teacher, IEP invitations, etc. Please use the folder to send notes from home, including an absence note every time your child misses school.

Contacting the Teacher: I am very flexible when it comes to meeting or speaking with parents or caregivers. Simply reach out to me via a note, text message, or phone call and we can either talk or set-up a time to talk.

E-mail: ejpalmer@philasd.org

Cell: (610) 291-8418

Tools to utilize at home:

Math – iReady (More information to come)

Supplies: The following supplies are needed for your child's math class: Notebook (For math only), folder, two sharpened pencils daily, and a school bag to keep belongings.

Thank you,

Edward Palmer
Overbrook Educational Center
Math Teacher in Grades 3rd through 8th
